## SAFE DRINKING WATER FOR GOGONYA-EAST COMMUNITY IN MAKINDYE, HOSTED BY ST. MICHAEL CHILDREN'S HOME NSAMBYA

St. Michael with East-Gogonya down in the valley

The Gogonya-East Community is living down in the valley.

St. Michael Children's Home is located on the top.

There is water down in the valley which can be purified into safe drinking water for all community members by constructing an underground tank.

Down in the valley is a natural well

Making the underground tank

Covering the underground tank

Underground tank finished

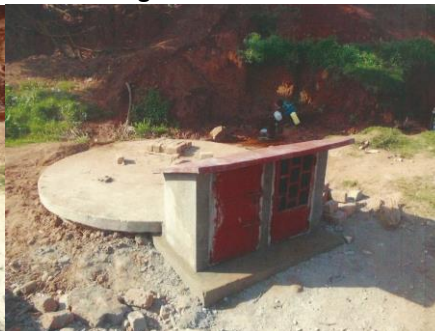

Underground tank near well

A tower with 2 tanks of each 4.000 liters has been constructed in the compound of St. Michael.

A steel cage to protect pump and taps

Pump House completed

The water from the underground tank is pumped into the tower tanks. One tank is for feeding the water purifier. The other will be used for other home needs.

For pumping up the water we needed to construct a pump house near the underground tank.

**Installation of pump**

**The Pump House has 2 rooms.  
One is for the installation of the pump.**

**In the other room the safe drinking water taps for the community has been fixed.**

**Drinking water distribution will be controlled.**

**Aerial overview  
from top of tank tower**

**Pump, underground tank & well**

**Explanation of the Manual.**

**Instruction at the purifier**

**The purifier is just inside the building left from the tower with the tanks. The purified water is stored in a 1.000 liters stainless steel tank inside the same building (picture above).**

**The safe drinking water flows from there down into the right compartment of the pump house**

**Management of St. Michael Children's Home will operate the facilities on behalf of the community and has signed a Service Agreement for preventive maintenance 3 times a year.**

**Overview of all works implemented.**

**The facilities were handed over to the Community Leaders and the Administrator of St. Michael Children's Home on 23 July during a Community sensitization session.**

**The Administrator St Michaels and the Chairperson LC1 signed the Donation Agreement on behalf of the entire community.**

**The Chairman and Administrator of Tusaidiane Uganda signed on behalf of the donors, the Mirembe and S.P.Y.N Foundations of the Netherlands.**

**Sensitization meeting**

**Attentive community members**

**Chairperson receiving a 5L jerrycan with safe drinking water**

**The Children highly interested and enjoying the water**
