

Uit het verslag van december 2014

Piggery project: We have so far harvested four times and generated around 3,000,000= which we have used to expand our sty, bought a pregnant sow which delivered five piglets, we bought other six piglets to improve the quality and also fed the pigs. Two of our sows delivered, one produced seven piglets and another one five piglets. The third sow is now pregnant, we expect it to produce any time from now. We have now two quality male pigs and four sows for producing and thirty eight pigs being reared for quality pork. Our pork is liked by our customers and we have inexhaustible market.

Piggery farm at Kiwanga Charity Center

All in all this project has brought new life in the center. The day of slaughtering pigs, is a festive day in Kiwanga Charity Center. All members enjoy good meals with roasted liver and pork.
