BUKEEKA CHURCH OF UGANDA COMPUTER LAB/ LIBRARY LAUNCH

In 2017, the Headteacher of Bukeeka C/U, Mr. Wasswa Ronald Musoke applied to Tusaidiane Uganda, for assisting the school with the renovation of a room which would host the school computer laboratory. The government had promised to offer 25 computers from the IT Ministry on condition that the school provides a proper room for the computers. In the same year, we approached our partners of Mirembe Foundation for assistance and they agreed to help with Euro 2000 but also put a condition that they could only give the money if the government was fulfilling their promise of giving the computers to the school.

In 2018 there was no developments despite the commitments from the IT minister to give the school the computers. At the end of 2018, we changed the strategy and wrote another Project Proposal which excluded the government computers and the school was to increase contribution to buy the computers and also renovate the room. Our sponsors agreed to this and we set off with the project. The total amount was 31 million which was split as follows;

- Tusaidiane contributed 13 million
- Mirembe contributed 8 million
- The community contributed 10 million

Parents waiting for the start of the function

Students performing songs

On the 15th of August, we attended the function to launch the grand opening and the chief Guest was Hon. Minister for Sports Charles Bakabulindi who arrived at 2.00pm. We went for lunch, and

there after several music interludes were performed before the Headteacher giving his speech. He presented in his report, the number of Students in the school which is 738 students with 20 teaching and non teaching staff. In his long speech, he dearly thanked Mirembe Foundation and Tusaidiane Uganda for the assistance rendered to the school and not forgetting the community. A committee was selected by the community to look after the project because it will also benefit the community.

The guest of honor was invited by the headteacher to give his speech. He started by thanking all the partners of Bukeeka who have enabled realization of the computer lab/library. He said that the internet was now a global village which is good for learning and communicating, so the community should use the laboratory to full capacity.

Inside the computer room

Handover of the balls

As the Minister of Sports, he could not leave without talking about Talent Developments of children at an early age, “parents and teachers should be very supportive to build the children’s talents” he said. He gifted the pupils with six balls which will help them develop their sports. He concluded his speech by giving Certificates to Tusaidiane and Mirembe Foundation. We there after went with the minister and parents to launch the laboratory by cutting the ribbon for opening.

At the end of the day, it was a successful function but Tusaidiane could not give their speech because we had to leave at 5.00 pm since we had to drive back to Kampala. I would like to appreciate all stake holders who contributed to the completion of this Project. It is the first of its kind in Kayunga District and we hope that it will have a big impact on the school and the surrounding community.
