RE: RESOLUTIONS FROM THE VILLAGE MEETING ABOUT RELIF ITEAMS.

Following the outbreak of the COVID -19 in Uganda and the whole world, the chairperson of the village - Kamuli convened a village meeting on 11th April, 2020 to forge ways on how people in the community are going to overcome the prevailing situation.

It is absurd and painful that ever since the government of Uganda announced the lock-down, many people in the villages are starving and have totally nothing to feed their people since most of them are cattle keepers whereby they face both quarantine of the people and also their animals. We came together to find a solution as a community to help needy people. Before resolutions were taken a task force was chosen which will be in charge of identifying the needy, collecting well-wisher items, collecting data of the most needy, distributing the food and giving accountability to the community.

Therefore, the village members in the meeting resolved the following:

- a) We have to contact well-wishers in the community for food supplies and already a few business people have committed to supply 200 bunches of matooke.
- b) We have to continue to follow up the request we handed in at the district for food supplies.
- c) A few better families were requested to provide 2kgs of beans and it will be distributed to the most needy.
- d) The LC1 also requested the community to work together and stay together, "help a needy neighbor in these trying moments" he said.
- e) They have collected data of the most vulnerable people and it will be given priority when distributing relief items.

- f) The food must be distributed and used sparingly because the situation is very uncertain.
- g) Accountability of food received by the committee will be given every week to create transparency
- h) The community was urged to continue with their agriculture because even after the shutdown food will be needed in the community
- i) Contact phone numbers were put up by the committee in case of an emergency

In the meeting, members agreed that after collecting all the items, the village committee agreed to start food distribution with the most vulnerable families as they wait for more assistance.

The LC1 concluded the meeting by thanking all well-wishers who have contributed to fighting the pandemic and requested every one to follow the government guidelines mostly of washing hands, social distance, reporting any suspected cases and to stay home for their own safety and the community at large.

Yours faithfully,

.....
