

## **NARRATIVE AND PICTORIAL REPORT OF ENF CONSTRUCTION OF THE RESTAURANT**

On the 21<sup>st</sup> of October, ENF started with the second phase of the construction of the restaurant as an income generating project funded by Stichting Mukwano for an amount of **UGX 40,412,000**. The money would cover the second, third and fourth phases of construction for a period of 9 weeks. These phases included construction of; the super structure, roof structure and mechanical, plumbing and electrical works. All the following phases have been completed and verified by ENF with some unforeseen overruns of **UGX 8.500.000**. (please see attached accountability in excel).

The remaining phases (5, 6 and 7) are; doors and windows, finishes and external works amounting to **UGX 50,903,695**. These can be completed by the 30<sup>th</sup> of December if money is available. ENF is also humbly requesting Stichting Mukwano to fund the unforeseen overruns of **UGX 8.500.000** for phases (2,3 and 5). The community is happy with the works are showing much interest in renting the premises as soon as possible. The board of ENF is so grateful to their friends/ sponsors of Stichting Mukwano for funding this project. May God richly bless you

**Below is a pictorial report of the works.**

The foundation slab

Builders start raising the walls

Raised walls

Builders build up to the beam level

Beam level of the eating area

Open eating area

Phiona stands in front of the salon at one of the visit

Timber for starting roofing works

Timber and wire mesh for making roof and ceiling

Builder roofing the building

Roofed structure is complete

Parapet wall ready for plastering works to start

Some of interior electrical works

Outside electricity metre box shell

Back side of the building filled with soil, green grass will be planted here. The hole is a manhole (with drainage pipe) which will be covered.

Levelling of the compound to make the parking area at the front of the restaurant
